EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Armstrong on 1/3/2006.

The application has been amended as follows:

IN THE SPECIFICATION

Page 19, line 6: After the phrase "magnetic layer", delete the numeric "23".

IN THE CLAIM

Re. Claim 1: Before the phrase "magnetic layer" as recited in line 37, delete the phrase "first".

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as a process of forming a magnetic layer to be a track width defining portion formed on a recording gap layer follow by selectively etching through the mask so as to form an end portion of the magnetic layer for defining a throat height defining layer and etching the magnetic layer, the gap layer and a portion of the first pole layer so that each of the portion of the first magnetic layer, the gap layer, the throat height defining layer and the track width defining portion has a

width that is taken in the medium facing surface and equal to the track width. The closest reference Sasaki (US PAT. 6,560,068) teaches a process of forming a recording track width having a width equal to a track width, but fails to teach a magnetic layer to be a track width defining portion formed on a recording gap layer follow by selectively etching through the mask so as to form an end portion of the magnetic layer for defining a throat height defining layer. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-9 are allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Friday between 7:00 AM to 3:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 571-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
